I'm down here in Durango with Dan Wall et al. Shawn McGrath is here. The river is orange. CO FWS has some fish in cages in the river overnight & word is they were still alive this morning. Quite a lot of consternation in town here about the orange river. We are not sure if ER wants any help from us or ESAT today. Dan is probably going to work the spill through the weekend. It seems likely I will get released from the spill today.
